

Q88.com Integrates with Suncor's Vetting System

Ship operators are required to complete the Suncor questionnaire on the Suncor Marine Risk Management System prior to each fixture. Q88.com has integrated with Suncor which will enable ship operators to populate the responses to the Suncor questionnaire with the vessels' data stored in their Q88.com account.

Directions to complete the SUNCOR (PetroCanada) Questionnaire:

1. Visit: <https://apps.petro-canada.ca/mrms/Sign-In.aspx>
2. Login using your SUNCOR login details
3. When you reach STEP TWO, you must click "I agree to Terms and Conditions"

SUBMISSION PROCESS - STEP TWO

Questionnaire for DEMO BOUNTY - Edit

Suncor Energy Inc (SEI) and its affiliates screen vessels to ensure that they meet SEI's criteria of acceptability.

The goal is to ensure that each vessel, as well as the vessel's crew, owners and managers, can demonstrate that they form a team that can provide SEI with a safe, reliable and cost-effective transportation solution.

Please ensure that all questions are answered and that all answers are complete, accurate and truthful. Incomplete questionnaires or erroneous entries will delay the evaluation process and may result in the vessel being rejected.

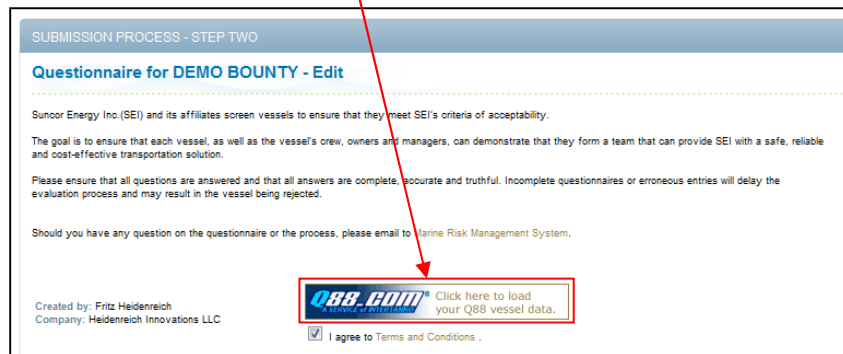

Should you have any question on the questionnaire or the process, please email to Marine Risk Management System.

What is an integrated login?
The integrated login enables you to securely login to your Q88.com account and authorize Suncor to retrieve your vessel information. This will save you time and effort knowing that the data you maintain in Q88 will be used in this questionnaire.

6. You will then see the Q88 icon next to all information that was populated by your q88.com account.

The screenshot shows a form titled "THE VESSEL" with several fields. A red arrow points to a Q88 icon next to the first field. The fields are:

- Vessel name: DEMO SPIRIT
- Q88 2 Does vessel have a previous name? ☒ Yes ☐ No
- Q88 2a If yes, previous name(s): Trust Forgotten
- Q88 2b If yes, date changed: 2007/10/01 Oct 1, 2007
- Q88 3 Date vessel delivered (built): 2005
