## **Q88 LLC Opens New Office in London, UK**

Stamford, Connecticut – 28 May 2015 – Q88 LLC announced today that it has opened a new office in London, UK. Located in Soho, the cultural center of London's West End district, the office will serve as a key hub for business development and client relations. The office will be headed by Q88's VP of Sales & Marketing, Peter Andersen, and VP of Research, Richard Abrahams, both having significant business development experience in the region.

"We have always wanted to be closer to our customers in Europe, and it is very exciting at this time to be back in London, helping to spearhead our new venture in what is widely considered the epicentre of the international shipping industry" says Abrahams.

Andersen added: "Having followed the growth of Q88 since its inception I am delighted to join the company at this important milestone in its development and look forward to help growing our already large customer base in Europe and beyond."

Q88's new office in Soho is located at:

Q88 Europe Ltd  
58 Broadwick Street  
London, W1F 7AL

## **About Q88 LLC**

Q88 LLC is the leading SaaS technology provider to the maritime industry. Through our [Q88.com](http://Q88.com), [Q88Dry.com](http://Q88Dry.com), [Milbros.com](http://Milbros.com) and [Q88VMS.com](http://Q88VMS.com) platforms, built for the Tanker and Dry Bulk industries, we have been at the forefront of information technology for the industry since our inception in 2001.

Since day one, our mission has been to connect the global shipping industry and to facilitate the sharing of information in an efficient and productive way. Our partnership with the world's leading owners, charterers, ship managers, agents and brokers has provided us insight into how to build solutions for some of the industry's most pressing issues.

Fritz Heidenreich created Q88.com with the goal in mind of improving the accuracy and efficiency of the chartering and vetting processes and launched it to the industry in 2001. Q88 LLC has quickly grown from its modest starting fleet of 245 vessels and 36 ship-owners; today over 8,500 vessels and over 1,000 clients are using Q88 LLC solutions. Still, our goal of continuing to develop solutions to better connect the maritime industry remains the same.

Our customers credit our 24/7 global support and staff of maritime experts, as key components in ensuring the flexibility and reliability needed to remain competitive in our ever-changing market.
