

## Q88.COM VETTING ANALYTICS

Stamford, Connecticut – 23 March 2015 – Q88 LLC announced today the launch of a Vetting Analytics module on [www.Q88.com](http://www.Q88.com).

The new Vetting Analytics module can be used by owners to monitor and analyze their vetting performance, whether looking at fleets, vessels, VIQ chapters, changes over time or repeating questions. This suite of features includes:

- Vetting Observations page
- Observations Risk Levels
- Import multiple VIQs
- Charts by Quarter, VIQ Chapter, Vessel and Inspection Company
- Deep analysis of top repeating questions
- Inspection Report

Fritz Heidenreich, President, said, “We’re really excited about this new set of features, which is going to allow ship owners to keep a better eye on inspections, improving their competitiveness in the market place while simultaneously contributing to safer seas! This is a real win-win feature for everyone involved.”

## About Q88 LLC

Q88 LLC is the leading SaaS technology provider to the maritime industry. Through our [Q88.com](http://Q88.com), [Q88Dry.com](http://Q88Dry.com), [Milbros.com](http://Milbros.com) and [Q88VMS.com](http://Q88VMS.com) platforms, built for the Tanker and Dry Bulk industries, we have been at the forefront of information technology for the industry since our inception in 2001.

Since day one, our mission has been to connect the global shipping industry and to facilitate the sharing of information in an efficient and productive way. Our partnership with the world’s leading owners, charterers, ship managers, agents and brokers has provided us insight into how to build solutions for some of the industry’s most pressing issues.

Q88.com was first built as an in-house system used exclusively by Heidmar. The electronic documentation system offered 60 different questionnaires. Fritz Heidenreich created Q88.com with the goal in mind of improving the accuracy and efficiency of the chartering and vetting processes and launched it to the industry in 2001. Q88 LLC has quickly grown from its modest starting fleet of 245 vessels and 36 ship-owners; today over 8,500 vessels and over 1,000 clients are using Q88 LLC solutions. Still, our goal of continuing to develop solutions to better connect the maritime industry remains the same.

Our customers credit our 24/7 global support and staff of maritime experts, as key components in ensuring the flexibility and reliability needed to remain competitive in our ever-changing market.
