Q88 LLC announced today that it has completed an integration with bunker procurement platform, ClearLynx. The integration allows common customers to create requisitions in ClearLynx automatically from Q88VMS - Q88’s cloud-based voyage management system. “We are very excited about the integration with ClearLynx and the value it will bring to our customers. We continuously aim to automate processes for our customer and deliver un-matched user experience. Integrating our system with young and innovative companies like ClearLynx is yet another step in this direction.” says Gabriel Reiter, Q88VMS Product Manager.

Q88VMS, the latest product in Q88 LLC’s portfolio, is a web-based platform for managing all voyage related information. Built by people with chartering and operations experience, Q88VMS is designed to empower its users, catering to real-world industry dynamics. Q88VMS’ user base has more than doubled over the past 10 months.

Q88 LLC is the leading SaaS technology provider to the maritime industry. Through our Q88.com, Q88Dry.com, Milbros.com and Q88VMS.com platforms, built for the Tanker and Dry Bulk industries, we have been at the forefront of information technology for the industry since our inception in 2001. Q88VMS represents a new age of voyage management systems. Using today’s latest cloud technology and maintaining that Chartering, Operations, Post-Fixture and Management need an intuitive, flexible design, Q88VMS offers an unmatched user-experience that has shifted industry expectations. Q88VMS is the voyage management system built for today, built to last.

ClearLynx is an online, multi-sided e-Marketplace serving buyers and sellers who value each other’s participation in marine fuel procurement. A liquid marketplace to ‘plan, procure and pay’ that reduces costs in IT development, while creating efficiencies in process, workflows and reporting 24/7 on desktop or mobile app. ClearLynx provides intel from historical data and ClearView real-time pricing driving faster decision-making. ClearLynx eliminates the high cost of data re-entry all while creating an audit trail for every point of the purchase process. The data control creates accurate, live reporting through a sophisticated business intelligence tool for visibility and benchmarking. ClearLynx is smart, intuitive, safe and secure.
